Area: Instruction

Policy Name: Graduation Requirements

Policy Statement: To maintain the integrity of its academic program SATC establishes minimum graduation requirements. This policy establishes the minimum expectations for a student to successfully complete graduation requirements.

Procedures: SATC students have five years from the last date of attendance to apply for graduation. Students must meet all minimum requirements to be deemed eligible for graduation including:

1. Timely completion of the Application for Graduation.
2. Successful completion of all program required courses from the catalogue of entry/re-entry.
3. A minimum cumulative grade point average (GPA) of 2.0.
4. A minimum grade of 2.0 in each course that applies toward the requested credential.
5. Completion of the program minimum number of credits.
6. Completion of 15 credits or more from the requested program, earned at SATC.

Developmental course work carry academic credit and grades earned are included in calculating the student's grade point average. The credits for these courses, however, constitute additional graduation requirements beyond the total number of credits required for an associate degree or certificate.
