Area: Student Services

Policy Name: New Student Orientation

Policy Statement: A comprehensive orientation program makes a substantial impact on students’ persistence and success in college. Salina Area Technical College (SATC) is committed to student success and has designed a mandatory New Student Orientation (NSO) program that provides students with the necessary tools needed for student success. This policy enforces the requirement and necessity of supporting processes to assure new students complete orientation.

Procedures: All new SATC students are encouraged to complete NSO prior to course registration. Guest, dual enrolled, auditing students and those seeking credits in ‘typical’ non-degree courses are exempt from the NSO requirement.

While it is preferred that students complete on-campus face-to-face orientation; those with extenuating circumstances may request permission to complete online orientation.

Student Services shall establish and maintain written procedures that support effective and consistent implementation of the NSO process. Monitoring systems shall be regularly implemented to assess student learning benefit and student satisfaction.
