Additional Vaccination Information:

- TAKE TIME to verify that copies of immunizations are highlighted and attached to the ADN packet.
- Chickenpox is an immunization that is often incomplete. We can only accept proof of vaccination or a titer. We cannot take anyone's testimony that you had chickenpox, not even a physician's. Make sure that you have either vaccines or a titer. Paperwork for a low titer will not be accepted.
- **Currently TDAP (tetanus, diphtheria, and pertussis (whooping cough)) is being recommended for persons who may be around small children. Some clinical sites are indicating that they're going to require it for our students. So, please ask your healthcare provider to give you that vaccine.**
- Hepatitis B is required by vaccine or titer. If your titer is low, you should get the vaccine. Paperwork for a low titer will not be accepted. As the Application Information and Instructions state, you should get the Hepatitis B early, as it takes 6 months to complete the series as required.
- **Due to the student nurse requirements we must adhere to the above dosage amounts of the immunization record listed above.**
