*** NOTE:** Gauge sets must have captive hoses or EPA approved captive devices on the service hosed ends to be in compliance with the EPA regulations.

NOTE: It is recommended that students purchase the "Imperial" brand flaring tools for best performance on air conditioning and refrigeration copper. This is not mandentory, only recommended.

NOTE: Your tools are your choice of manufacture. Salina Area Tech will assist you in choice if you so desire, but we do not advocate business with any specific company or organization.
