

Research Database List

Updated 8/18/2017

Below you will find a description of the information resources currently available for all Salina Tech students.

The Kansas State Library provides access to many of the below resources. To access them, visit the Kansas Library Online Resource page (<http://www.kslib.info/librarians/eor.html>). The links on the Kansas Library's Online Resource page should recognize your IP address as being inside Kansas and allow you access without the need to log in. However, if you cannot access a database, ask our Learning Resource Specialist or our English Instructor for a Kansas Library Card. Once you have a Library Card, you will be able to access the databases through the Kansas Library Card portal at: <http://www.kslc.org>.

Opposing Views is a database provided to you by Salina Tech. To access this database, please ask the [Educational Services Specialist](#), or the [English Instructor](#) for the password.

Salina Tech has an agreement with the **K-State Polytechnic Library** in which our students share the same access privileges as their student have for print and electronic media as well as interlibrary loan. All you need to check out resources and access online databases is your Salina Tech Student ID.

Don't forget to cite your sources!
