

SUMMARY OF JOB RESPONSIBILITIES AND REQUIREMENTS

JOB TITLE: Intern- Design Services

REQUISITION:

DEPARTMENT: Distribution Operations- Salina Service Center

LOCATION: Salina, KS

PAY RANGE: \$17.00- \$20.00

Scheduled Work Hours: Monday - Friday, 8:00 a.m. - 5:00 p.m. (Other hours as required)

It's never too early to start searching for your dream career. If you're ready to apply the principles you've been learning at school in the real world, Evergy is the place for you. Hands-on experience is what our internship programs are all about. Our programs offer students an opportunity to gain insight and meaningful experience while also allowing us to identify talented prospective employees. Many of our interns go on to develop successful careers at Evergy.

As an intern, you'll have real responsibilities, and you'll work on productive assignments with actual business interactions. We know that you work hard, so we help you play hard while you are here. We provide a number of intern events throughout the summer to burn some extra energy, including volunteer events, power plant tours, lunch and learns, and more

Intern Description:

The selected candidate will work under the supervision of the Design Services Manager on a variety of technical and nontechnical assignments related to Westar Energy's electric distribution system. This position will provide a good opportunity for an engineering student to become familiar with Evergy design and engineering practices, technical analysis, and field operations related to the distribution system with a focus on design of large distribution line construction projects.

Job tasks include but not limited to:

- Creating construction maps and instructions
- Developing project cost estimates
- Communicating and collaborating with project stakeholders
- Performing field visits to determine design and customer requirements
- Perform budget and planning tasks
- Updating spreadsheets
- Assisting with process improvements

Education and Experience Requirements:

Candidates must be currently enrolled in a university or technical program in one of the following or a related technical field: Construction Technology; Construction Science; Electrical Technology; Electrical Engineering Technology; Industrial Engineering Technology; Mechanical Engineering Technology; Power Plant Technology; Computer Aided Drafting; Electrical Engineering, Mechanical Engineering; Civil Engineering, or Industrial Engineering.

Skills, Knowledge and Abilities Required:

- Excellent communication, public relations, teamwork and technical skills.
- Strong math, business/technical writing and technical reading skills.
- Experience in the use of computer-aided drafting, spreadsheets, word processing, and applicable engineering software.

- Skills are necessary in planning, organizing, oral and written communication, prioritizing and team building.
- Ability to quickly learn and become proficient in use of new computer software and programs.

Working Conditions:

Office conditions with continuous attention to performing work of high quality and accuracy in a safe manner. With use of a company vehicle, occasional field inspections/observations will involve work outdoors within driving distance of work location.

Evergy has a clear mission – To empower a better future. Evergy chooses to live this mission by valuing People First. We know to accomplish becoming the most innovative and reliable energy company, we need a team with a variety of backgrounds, perspectives and skills. So, our goal is to be a diverse workforce that is representative of the communities we serve. We are committed to celebrating diversity and building a team where everyone – regardless of race, color, religion, gender, gender identity or expression, sexual orientation, national origin, genetics, disability, age, or veteran status – has a voice and can bring their best every day. We know that the more diverse and inclusive we are, the better we will be. Evergy is proud to be an equal opportunity workplace and is an affirmative action employer.
